Cricket is a very popular game and is played at both national and international levels. This game originated in England. Cricket was introduced to the Indians by the British in the early 1700s. This game rules in everyone's heart in India and so it can be called the "king of the games". Millions of fans watch this game, and there is an air of excitement everywhere. It is enjoyed by the old and young. Over the years, this game has gathered a huge fan-base, who connects emotionally with it in our country.

The game of cricket goes long back to British times. When it was introduced in India, very few people played this game. The Maharaja of Patiala, Bhupinder Singh brought this game into limelight. He was a great patron of sports. He played cricket and he had his own team. Cricket was his second love after his kingdom. He was the man behind the golden history of cricket due to his passion for the game. His team Patiala XI was the best team during that time and he was the captain of the Indian team. He himself sponsored his teams for the tours to England.

Cricket is a game played by two teams of eleven players each on a pitch with two sets of three stumps, which are called wickets. The bowler bowls the ball down the pitch to the batsman of the opposing team, who must defend the wickets in front of which he stands. The target of the game is to score as many runs as possible.
